

# Peter-Marc Fortune

Peter-Marc began his career working in the electronics industry and holds a PhD in digital signal processing. At 25 he decided on a change of direction and took up a place at medical school. As a postgraduate he secured a paediatric rotation and went on to specialise in paediatric intensive care. His first consultant appointment was as on the launch team of the Children's Acute Transport Service (CATS), London from where he progressed to a substantive post as Consultant Paediatric Intensivist at Royal Manchester Children's Hospital in 2002.

He has interests in Medical Informatics, PICU transport medicine, Resuscitation, Medical Education, Medical Ethics and Human Factors.

He currently holds the post of Consultant Paediatric Intensivist and Chief Clinical Informatics Officer at Royal Manchester Children's Hospital. He is also the immediate past president of the Paediatric Intensive Care Society, Advisor to the Paediatric Critical Care Getting it Right First Time (GIRFT) programme and is the digital lead for both the NHSE/RCPCH National Paediatric Early Warning Score (PEWS) and RCUK Recommended Summary Plan for Emergency Care and Treatment (ReSPECT) working groups.
