

Disclaimer:

The certificate is issued in conjunction with the following Advanced Life Support Group (ALSG) course disclaimer:

The award by ALSG of a Certificate of Qualification indicates that you have successfully completed a course and by inference have undertaken active participation. The certificate does not constitute a Certificate of Competence or a licence to practise, as further training is recommended and you may not be authorised to use these skills within your employment. In some situations a disabled candidate might successfully pass all of the theoretical aspects of a course but, due to a disability, be unable to complete all of the physical course requirements.

Employers are themselves directly responsible for establishing that their employees have the capabilities requisite to their clinical setting – this is essential in the interests of patient health and safety.

Accordingly, they must not rely to any extent on the holding by an individual of a Certificate of Qualification from ALSG as lessening their responsibility in that respect.
